

Course Objectives

At the conclusion of this course, participants will be able to:

1. Understand the management options for sudden hearing loss.
2. Explain the indications for fitting patients with hearing aids.
3. Discuss the proper management of acute facial paralysis.
4. Describe the current management of otitis media and otitis externa.
5. Implement new strategies in the evaluation and management of the dizzy patient.

Who Should Attend?

This course is designed for the primary care physician, including internists, family physicians and pediatricians. The course will include a combination of didactic lectures and hands-on case studies, reviewed in small subgroups with practicums.

Faculty

John T. McElveen, Jr., MD

Dr. McElveen has practiced Otolaryngology and Neurotology for over 30 years. He is a graduate of Davidson College and UNC Medical School. After completing an ENT residency at Stanford, he completed a fellowship in otology/neurotology at the renowned House Ear Clinic in Los Angeles. He has served as the head of Otolaryngology/Neurotology at Duke University Medical Center and as president of the American Neurotology Society. He is currently the Director of the Carolina Ear Research Institute and President of Carolina Ear & Hearing Clinic in Raleigh, North Carolina. Dr. McElveen is an active member of the American Otologic Society, American Neurotologic Society, the Triological Society and Secretary-Treasurer of the Otosclerosis Study Group. He is actively involved in patient care, continues to teach residents and conduct clinically relevant research.

Anthony E. Magit, MD, MPH

Dr. Anthony Magit is a pediatric otolaryngologist who is currently a clinical professor in the ENT department at the University of California San Diego (UCSD). Dr. Magit completed his ENT residency at Duke Medical Center and a pediatric otolaryngology fellowship at Children's Hospital in Pittsburgh chaired by Dr. Bluestone. Dr. Magit has served as president of the Society for ENT Advances in Children and chief of staff at Rady Children's Hospital. He is currently Director of the Human Research Protections program for UCSD and the Medical Director for Telemedicine for Rady Children's Hospital.
